

Safety is a great concern at FB Designbuild.
We value the health and well being of our employees and our clients.
Therefore, we are committed to following all COVID 19 rules

We follow the requirements of the State of Calif, and do our best to prevent the spread of Covid 19 to all those who come to our worksite.. That includes the wearing of masks , maintaining social distancing whenever possible, providing hand washing stations and hand sanitizers. Requiring all those onsite to report any COVID 19 symptoms immediately and reporting any housemates with COVID 19.

Our project Supervisor monitors compliance with these safety requirements.

We work diligently to maintain a healthy worksite, while striving to ensure the highest quality of workmanship on your home.
